WALT: write a letter using formal and emotive language

Dearest Henry,

Everybody has a time when they must leave this world. My time is coming to an end quickly, as you may know, and one of my biggest wishes is that you take care of our child. As I write this letter all I can think of is those special moments we have shared, I am devastated yet I can still think of them, and I am truly grateful for how you have treated me. You must not grieve, though, my love, for I will always be with you.

All my love
Jane
